raeamblings a discussion guide other stuff is an extension of raeamblings a memoir about disability other stuff inside you'll find discussion questions to spark meaningful conversations along with additional insights into my journey and the process of bringing this book to life this kit also includes content not found in the memoir including a bonus chapter about my experiences volunteering at a cat café whether you're reading alone or with a group this guide is designed to enhance your experience at the end you'll also find a resource guide with information on disability and mental health services i hope this kit not only deepens your understanding of my story but also encourages discussions about accessibility identity and resilience

the design and functioning of an information system improve to the extent that the system can handle the questions people ask surprisingly however researchers in the cognitive computer and information sciences have not thoroughly examined the multitude of relationships between information systems and questions both question asking and answering the purpose of this book is to explicitly examine these relationships chapter contributors believe that questions play a central role in the analysis design and use of different kinds of natural or artificial information systems such as human cognition social interaction communication networks and intelligent tutoring systems their efforts show that data structures and representations need to be organized around the questioning mechanisms in order to achieve a quick retrieval of relevant useful information

asking the right questions is critical in focus group interviewing this book describes a practical process for identifying powerful themes and then offers an easy to understand strategy for translating those themes into questions richard krueger suggests ways of categorizing phrasing and sequencing focus group questions going beyond material presented in his earlier books krueger shares ideas for questions that get participants actively involved in the

focus group interview for example he suggests asking participants to make lists create report cards sort pictures draw cut and paste or participate in a mini debate the results of these activities not only yield insightful information but are also interesting and fun this book helps make the process of developing good questions easier by outlining a process and offering many examples

editor john schuh and his fellow contributors all experts in the field detail the methodological aspects of conducting assessment projects specifically for the student affairs practitioner who is ready to conduct assessment projects but is not quite sure how to manage their technical aspects using a variety of case studies and concrete examples to illustrate various assessment approaches the authors lead the reader step by step through each phase of the assessment process with jargon free hands on guidance

packed with features like case studies and checklists this accessible book gets you up and running so you can both understand interview research and use it in your project
